

Unione di più file PDF

Per questo esempio è stato utilizzato il software free PDFArchitect

scaricato al link <http://www.pdfarchitect.org/download>

PASSO 1 scarico il software

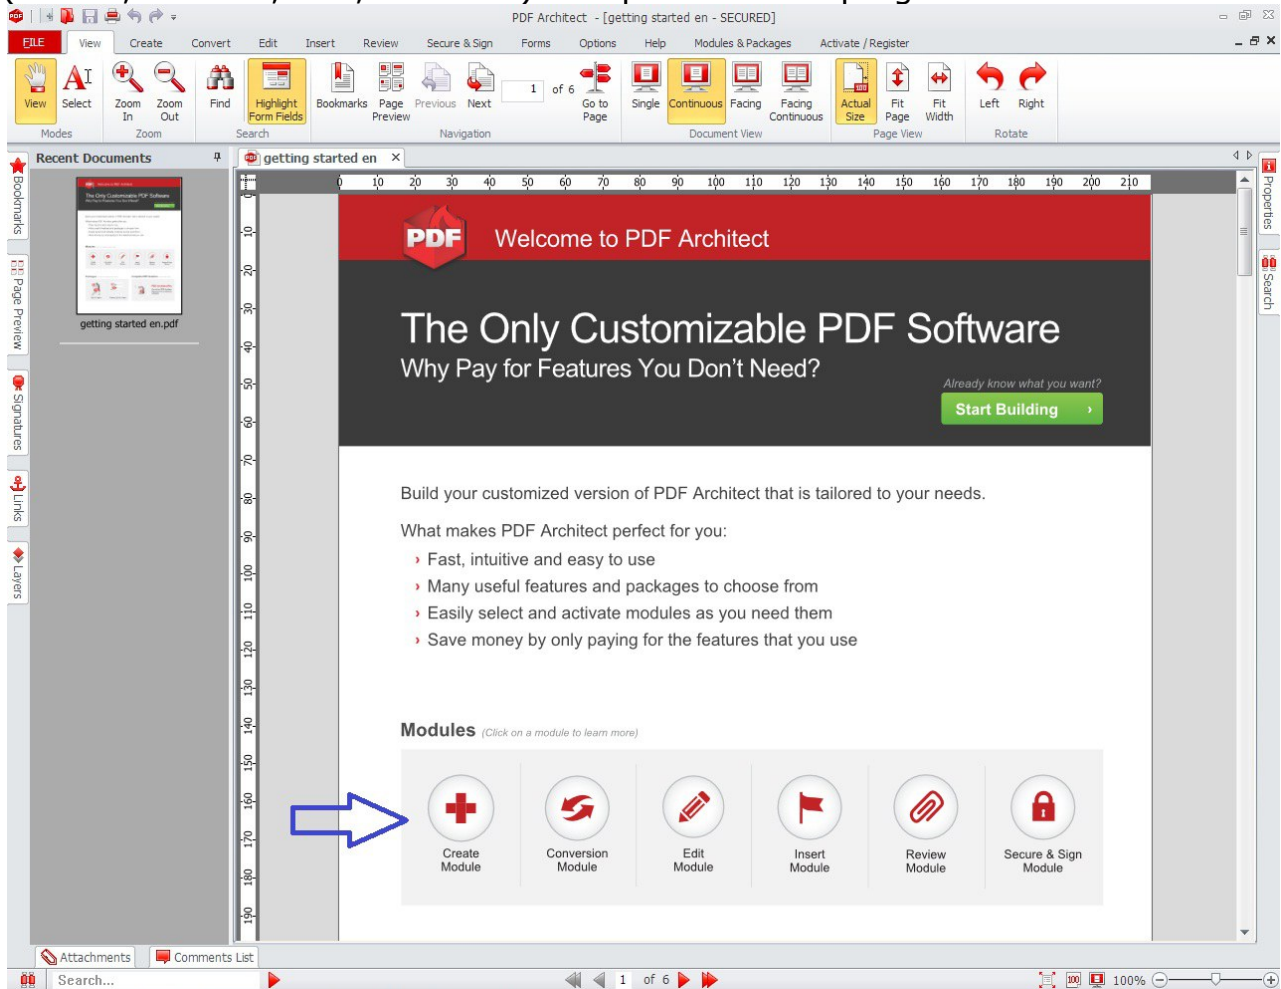

PASSO 2 lancio il file eseguibile che è stato scaricato

PASSO 3 Apro il programma

Nella pagina iniziale ho la possibilità di avere brevi descrizioni sui moduli (Create, Convert, Edit, Insert....) a disposizione del programma.

PASSO 4

Apro il modulo Create. Il modulo è attivabile gratuitamente, di seguito i passi per l'attivazione.

The screenshot shows the PDF Architect software interface. The title bar reads "PDF Architect - [getting started en - SECURED]". The menu bar includes FILE, View, Create, Convert, Edit, Insert, Review, Secure & Sign, Forms, Options, Help, Modules & Packages, and Activate / Register. The toolbar contains icons for Select, Zoom In, Zoom Out, and various PDF creation options like "From", "From any", "Combine", "From", "Batch", and "From".

The main window displays a "PDF Architect Modules" dialog box titled "Free PDF Creation Module". The dialog is powered by SODA PDF. It features a central diagram showing a PDF icon in the center, with arrows pointing to it from an XLS file icon, a DOC file icon, a printer icon, and a laptop icon. To the right, the text reads: "Free PDF Creation Module", "Register for Free and add PDF Creation features to your PDF Architect. You will receive a license key to activate the Free Creation Module." Below this, a section titled "Create PDFs" lists three features: "Create From Word, Excel, PowerPoint and 300+ formats", "Combine multiple PDFs in one document", and "Create PDFs from multiple files with the batch creation feature".

At the bottom of the dialog, there is a registration form with fields for "Name" and "E-mail". A checkbox labeled "I want to receive your PDF tips and special offers" is checked. A green "ACTIVATE" button is positioned next to the text "FREE MODULE". Below the form, there is a note: "Your information is kept confidential and will not be sold or shared with anyone [Privacy Policy](#)". A checkbox "Don't show this message again" is also present.

E' necessario inserire un nome di riferimento ma soprattutto un indirizzo e-mail valido a cui verrà inviato il codice per l'attivazione del modulo. Sulla casella indicata arriverà un messaggio di questo tipo

PDF Architect - Creation Module Activation key
noreply@pdfarchitect.org

Venerdì 18 Ottobre 2013 08.09
[Mostra dettagli](#)

Thank you for registering PDF Architect's Free Creation Module

We are pleased to offer you Advanced PDF Creation Features for your copy of PDF Architect!
Now you can create PDFs from Word, Excel & 300+ formats!

Here is your Creation Module **activation key**:
Activation key : 8E [REDACTED] D8

Follow the instructions below to activate your key:

- 1 Launch PDF Architect
- 2 Go to the Active tab in the ribbon bar
- 3 Enter your activation key and click on "Activate". The Advanced PDF Creation features are now unlocked.

Sincerely,
Your PDF Architect Team

dal quale poter copiare il codice da inserire al passo successivo e cliccare su Activate.

PASSO 4.1

PASSO 4.3

The screenshot shows the PDF Architect software interface. The title bar reads "PDF Architect - [getting started en - SECURED]". The menu bar includes "FILE", "View", "Create", "Convert", "Edit", "Insert", "Review", "Secure & Sign", "Forms", "Options", "Help", "Modules & Packages", and "Activate / Register". The toolbar contains icons for "View", "Select", "Zoom In", "Zoom Out", "Find", "From", "From any", "Combine", "From", "Batch", and "From".

A modal window titled "PDF Architect Modules" is displayed, featuring a "Free PDF Creation Module" registration form. The form includes a diagram showing various file formats (XLS, DOC, PDF) being converted into a PDF file, which is then printed or scanned. The text on the form reads:

Free PDF Creation Module
Register for Free and add PDF Creation features to your PDF Architect. You will receive a license key to activate the Free Creation Module.

Create PDFs

- ✓ Create From Word, Excel, PowerPoint and 300+ formats
- ✓ Combine multiple PDFs in one document

- ✓ Create PDFs directly from a scanner

Register for free and add PDF Creation features. Create PDFs instantly from various file formats and much more.

Your information is kept confidential and will not be sold or shared with anyone [Privacy Policy](#)

Don't show this message again

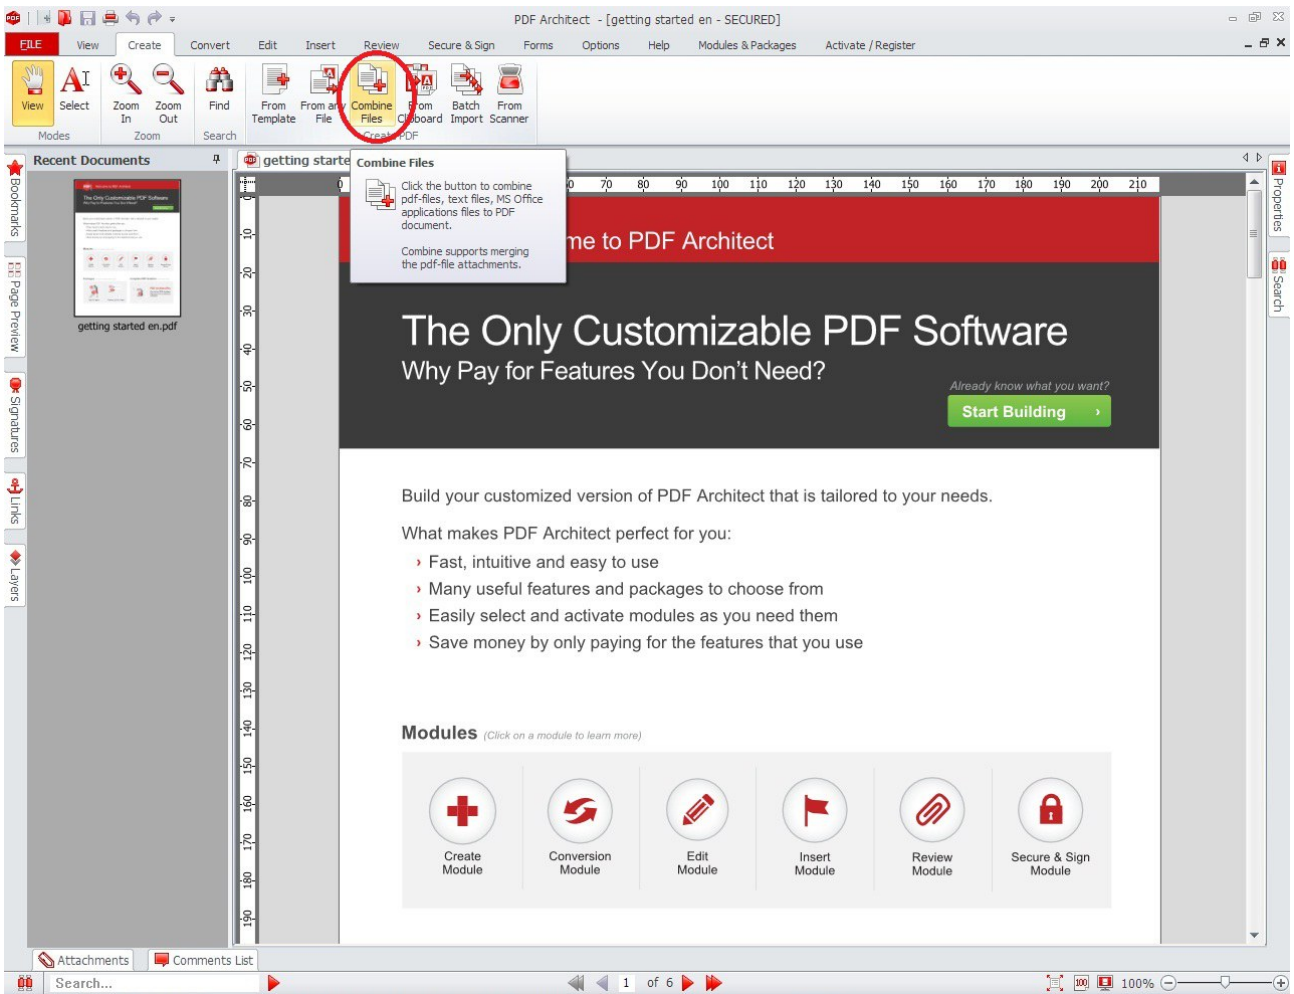

Thank you!

You should receive an email with your free activation key within a few minutes. If you don't find it, please make sure it is not located in the Spam/Junk folder of your mailbox.

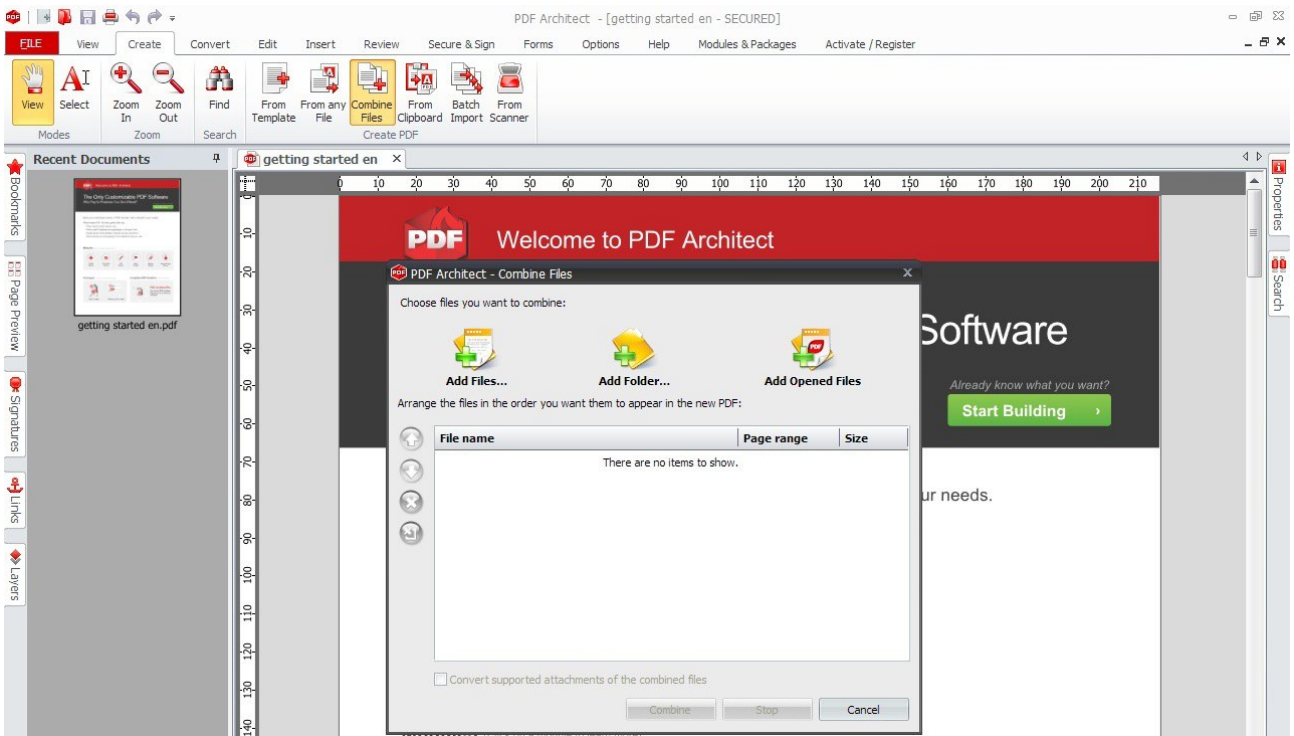

FINISH

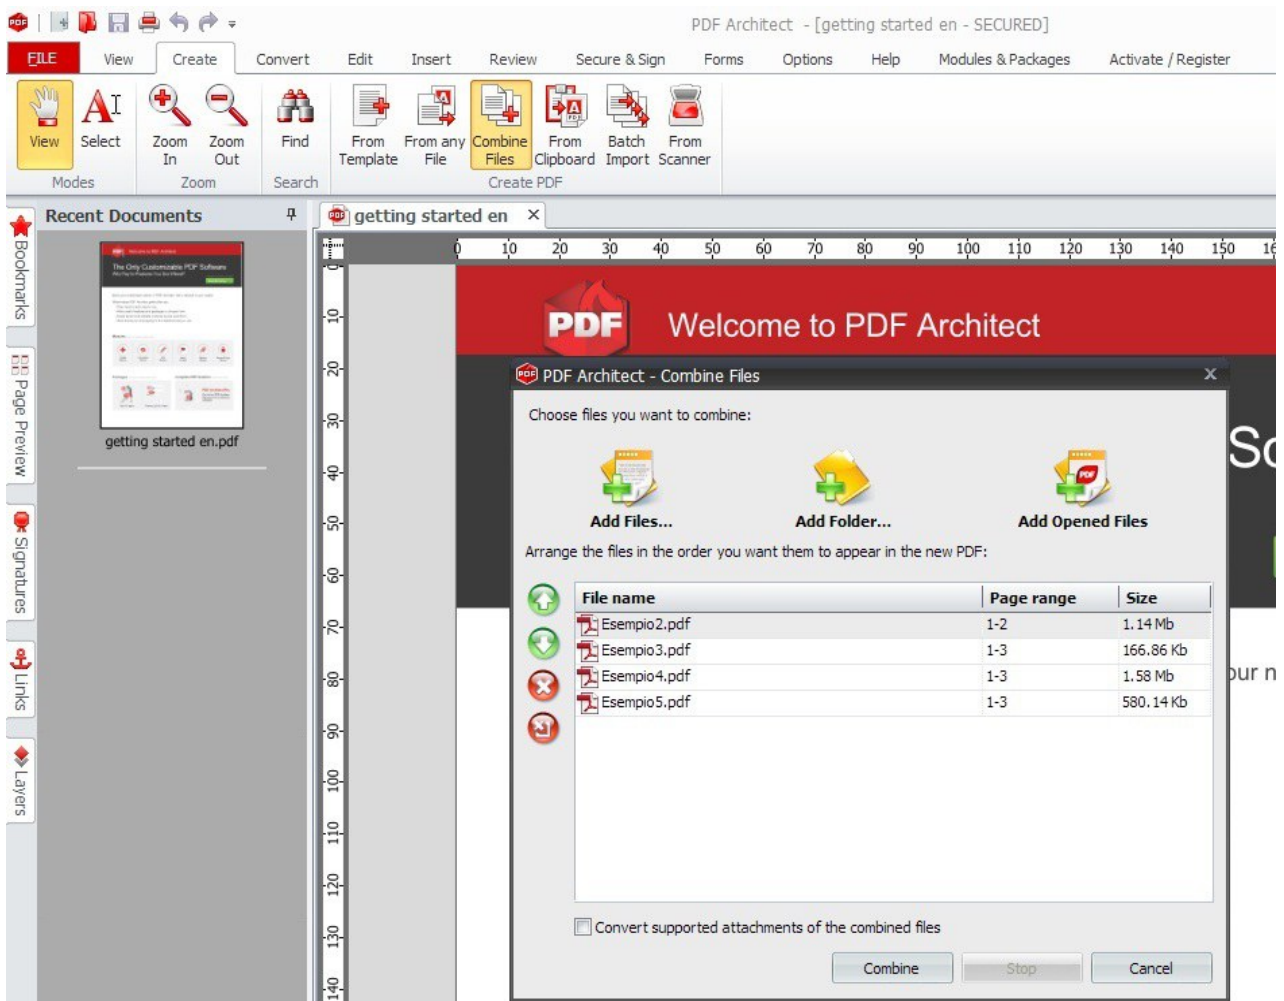

PASSO 5

A questo punto posso procedere con l'unione di più file utilizzando la funzione 'Combine files' del modulo Create.

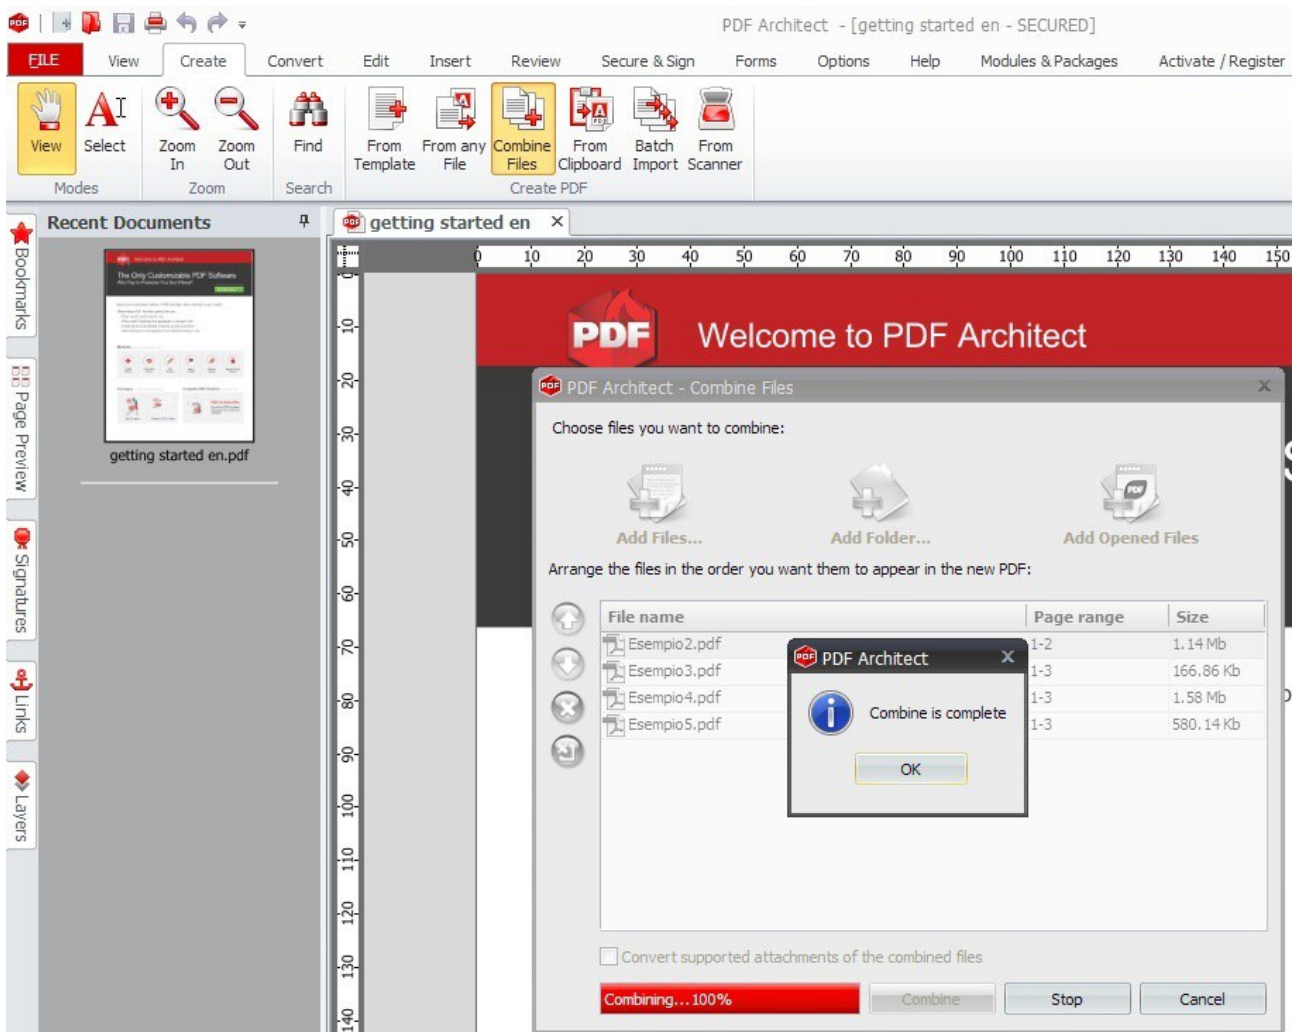

Utilizzando una delle opzioni disponibili vado a selezionare i .pdf da unire

Con le opzioni sulla sinistra posso modificare l'ordine dei file o eliminarne alcuni
Nota: è possibile selezionare anche file che non siano PDF

Con il tasto Combine si ottiene il risultato finale.

A questo punto posso visualizzare il risultato e salvarlo
